

Press Release

Neo Buggy is pleased to announce the return of the Neo race in 2010 ("Neo 2010"), this will be the 5th running of the Neo race; the first race, the 2005 Neo Invitational organized in Belgium before moving to the Harper Adams venue in 2006 followed by 2008 and 2009 editions; all organized with the DXR team. There will be some changes to the timetable, 7 minute heats, and 6 rounds of qualifying rather than five. The event will be run over four days: 2-5th April 2010; one day of practice, two days of qualifying with a 'dash for cash' race Sunday night, and finals on Monday. The race will run one class: 1/8 Buggy. We hope to once again welcome some of the finest 1/8 offroad drivers to attend this prestigious annual event. Sponsors welcome!

Further details will be published on www.theneorace.com, entry will open 1st December.

neo 2010

Information:

Past Winners

2005: Jared Tebo – USA

2006: Adam Drake – USA (Buggy & Truggy)

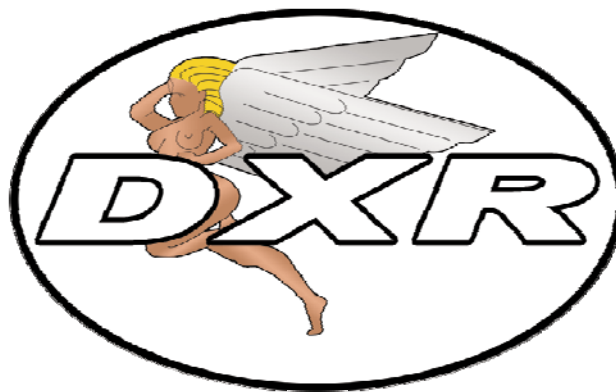

2008: Adam Drake – USA

2009: Jared Tebo – USA (Buggy), Ryan Maifield - USA (Electric 1/8 Buggy)

Venue: Harper Adams University College, Shropshire

An agricultural college located near Newport, Shropshire, The Neo race uses the college's indoor soil hall – the largest of its kind in Europe. Next door, the agricultural machine hall is transformed into the Neo pitting hall. Track construction usually starts 1 or 2 weekends before the event, depending on the college's timetable. The temporary track in its 'race-ready' state exists for only four days, as soon as the event finishes demolition of the track, pitting area, race control, drivers stand etc begins, by the next morning everything is gone. The fact that the track only exists 'for' the race ensures a fair and level playing field for all drivers; no one having practiced on it and at an advantage – it is a true test of the driver. The organization team are able to keep the track consistent via daily watering schedules and sweeping of the racing line, weather is less of a factor than outdoor races as we race under roof and lights!
